EXPERIENCE

Frontend Developer

Lincode Labs

November 2022 – Present, Bangalore

- Collaborated with designers and back-end developers in the development of version 2 of the product from scratch involving the complete redesign and reimplementation of the front end using React JS and Material-UI (MUI).
- Collaborated closely with stakeholders to gather requirements and translate them into actionable development tasks.
- Utilized Figma to create UI designs and successfully converted them into responsive user interfaces, ensuring optimal viewing experiences across various devices and screen sizes.
- Implemented Test-Driven Development (TDD) practices in a few of the modules, writing comprehensive tests using React Testing Library and Jest to ensure high code quality and maintainable components.
- Integrated APIs using Axios, effectively handling data retrieval, updates, and error handling.
- Leveraged Redux for state management, designing efficient actions, reducers, and selectors to facilitate data flow and maintain application-wide state.
- Utilized React Hooks extensively to create reusable and modular components, improving code readability and maintainability. Implemented form handling using React Hook Form, ensuring efficient validation and state management for user input.
- Actively participated in Agile development processes, including daily stand-ups, sprint planning, and code reviews.
- Ensured code quality and adherence to best practices by utilizing ESLint and following established coding guidelines.
- Implemented internationalization (i18n) in projects, ensuring seamless localization and adaptation for different languages and cultural contexts.

Frontend Developer Intern

Adcuratio Media Inc

March 2021 – April 2021, Bangalore

- Updated current systems by applying improvements, bug fixes, and other additions to improve user experience

Junior Software Developer

Adcuratio Media Inc

May 2021 – July 2018, Bangalore

- Developed client onboarding feature which increased the efficiency of curating clients by 70%. Implementation of new features and REST API integration.
- Improved and consolidated the development process by implementing reusable UI components. Code refactoring and maintaining the highest level of coding standards.
- Constantly fixed any application or website issues reported by customers or employees.

EDUCATION

Master of Computer Applications

National Institute of Technology • Jamshedpur • 2021 • 7.32

Bachelor of Computer Applications

St. Xavier's College • Ranchi • 2018 • 6.87

SKILLS

Technical Skills: ReactJS, Javascript, React Hooks, Redux, HTML, CSS, GIT, Typescript, Material UI, Ant Design, React Form Hook, React Testing Library, Jest, NPM, Yarn, Nginx

Industry Knowledge: UX/UI, Testing, Debugging, Scrum
